United Way of Door County Raises the Most in the Organization's History

United Way of Door County is pleased to announce that the 2013 Annual Fundraising Campaign raised \$466,943.50. This number represents over 8,000 Door County residents who will be empowered by at least one of the human services programs that receive funding from United Way of Door County. The Community Investment Committee and Board of Directors are pleased that they will be able to meet their 2014 financial obligations to their Strategic Partners who work to meet the county's impact goals in the areas of Basic Needs, Community Wellness, Health, and Alcohol and Drug Abuse and Prevention.

Don Albert, volunteer President of the United Way of Door County, said "The United Way of Door County extends a big thank you to our friends and neighbors in Door County for helping us raise needed funds to help thousands of people here in our community." Albert added that, "Without each and every one of you who believe so strongly in this local organization, we could not achieve this level of success in our community."

Albert emphasized one final thought, "While many needs will be met in 2014, there are still hundreds of others who will need assistance. Remember to LIVE UNITED. You can do this easily if you take a little time to Give, Advocate or Volunteer right here in Door County."
